

**Warren County Consortium for Student Enrichment  
Mission Statement**

**Overview**

- Established in 1994 to foster the creative talent and diverse interests of all students in Warren County Schools through programming, education, professional development and support.
  
- To develop programs that would encourage diverse thinkers, as well as academic thinkers.
  
- To provide challenging programs and educational opportunities that expand knowledge and enhance potential throughout the academic year for students in member schools.

**Consortium Goals:**

The goals of the Warren County Consortium of Student Enrichment (WCCSE) are to provide a variety of programs that develop potentials in students according to interests and talents with the emphasis on encouraging learners to solve problems or develop new ideas through convergent and divergent thinking, and to build awareness and understanding of the characteristics and needs of gifted learners and individuals with high potential and how these needs can be met.

**Objectives:**

- Increase interaction among talented learners from Warren County.
- Nourish and encourage learning for all stakeholders in school community (students, parents, teachers)
- Increase exposure to problem solving and creative thinking.
- Provide opportunities for positive collaborate experiences.
- Increase awareness of National Association of Gifted Children standards
- Communicate through website: [www.wccse.weebly.com](http://www.wccse.weebly.com)
